

## BENEFITS OF LEARNING WITH MINECRAFT

**Learning is FUN!** Students are assigned weekly lessons that include online videos and articles, with exciting Minecraft build projects to prove their comprehension of the learning material.

**Teamwork is required!** Students must learn to work together in game and respect each other's space to maximize results.

**Technology is here to stay!** Increased typing proficiency, improved communication skills on voice chat servers, and blossoming visual design and creativity on the Minecraft servers are all side effects of living in a Minecraft world.

**Fits Your Schedule!** Assignments are due weekly on Friday. You can study, perform build tasks, and work with classmates on your own schedule.

**International Culture Exposure!** With students ranging from Thailand and Australia to Hawaii and the Philippines, learning about cultures and making friends from around the world is an amazing bonus!

## GETTING STARTED WITH GAMED ACADEMY

We are excited to share our program with you. To get started, please follow these steps:

1. Identify a group of at least 20 students within your organization.
2. Select one or more of our courses that you are interested in teaching. Course details are available at [GamEDAcademy.com](http://GamEDAcademy.com).
3. Pick the dates that your program will run.
4. Contact us at [info@GamEDAcademy.com](mailto:info@GamEDAcademy.com) with this information so that we can help you set up your course.

We will create your custom course, train your onsite teacher, and give them access to their course on our assignment portal.

Your teacher will be able to grade students, review progress, print grade reports and tweak the curriculum as necessary. If preferred, we offer grading services for your course.

We look forward to speaking with you soon!
