6th Grade Social Studies Course: Castles and Cannons

October 2016

COURSE OVERVIEW: In 476, warriors attacked the city of Rome and ended more than 800 years of glory for the “Eternal City.” About one thousand years later, Europe experienced a “rebirth” we now call the Renaissance. The era between the fall of Rome and the Renaissance is a thousand-year period we call the Middle Ages. Culture in the Middle Ages is often described as barbaric. This was a rough time to exist! Today we think of the glamour of kings, queens, and the Knights of the Round Table, but the reality is that most people had little to no rights and lived in poverty! Are you ready to roll up your sleeves and experience the life of a peasant? Polish your crown and work on your castle? Engage in a friendly joust in the PVP based Knights Tournament? Join us for an amazing adventure through the Middle Ages – Minecraft Style!
